DETAILED ACTION

Page 2

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 16,22,25,27 are rejected under 35 U.S.C. 102(a) as being anticipated by Winter et al. in DE 102 29 744 A1, published 15 January 2004. Winter et al. in paragraph 10 discloses a process for laser welding without defects in which defocusing is carried out linearly with respect to the end of the seam, and laser power is reduced 30% at 3 mm from the end of the weld seam.

- 2. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.
- 3. Applicant's arguments with respect to claims of record have been considered but are most in view of the new ground(s) of rejection.
- 4. Claims 28-30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 5. Claims 13,14,17-21,23,26 are allowed.
- Please note that the declaration claims priority only based upon German Patent Application document No. 103 09 159.9, and a copy of this priority document was received on 7 June 2004. Subsequently Applicant has submitted a copy of German

Patent Application No. 103 49 677.7 without any explanation. If Applicant also desires priority based upon this application, then a new declaration will be required. Please clarify.
